

NGO WEBSITE FEATURE HIGHLIGHTS

Figma Task Concept • Features that can strengthen an NGO / foundation website

PROJECT OVERVIEW

The proposed homepage layout focuses on five high-value features: donation, volunteering, impact transparency, campaigns and testimonials. Together, these sections help visitors understand the organization, take action and trust its work.

01 DONATE NOW

Make giving simple and trustworthy.

A prominent donation section should offer clear donation amounts, a custom amount option, secure payment guidance and a visible call-to-action. This helps supporters contribute without confusion.

Primary CTA: DONATE NOW

02 VOLUNTEER WITH US

Turn visitors into active volunteers.

A short registration form can collect name, contact information, areas of interest and availability. Keep the form simple so more visitors complete it.

Primary CTA: BECOME A VOLUNTEER

03 OUR IMPACT

Show measurable results and transparency.

Use statistics and visual indicators to communicate beneficiaries reached, projects completed, volunteers involved and funds or resources used. This makes the NGO's work easier to understand.

Example metrics: 5K+ Beneficiaries • 25 Projects • 300 Volunteers

NGO HOMEPAGE FEATURE LAYOUT

A simple visual structure for presenting the five features

HERO / NGO INTRODUCTION	DONATE NOW
ABOUT THE FOUNDATION	VOLUNTEER WITH US
OUR IMPACT — statistics / progress	CURRENT CAMPAIGNS
TESTIMONIALS	CONTACT / FOOTER

04 CURRENT CAMPAIGNS

Make ongoing initiatives easy to discover.

Campaign cards should include a title, short description, target, progress and deadline. Each card can link to a detailed campaign page and support action.

Primary CTA: SUPPORT CAMPAIGN

05 TESTIMONIALS

Build trust through real experiences.

Short quotes or stories from beneficiaries and volunteers can show the human side of the organization. Use names or roles only when appropriate and with permission.

Content type: Short story • Feedback • Experience

DESIGN NOTES & USER EXPERIENCE

Recommended visual and usability principles

Clear navigation

Use a simple top navigation with Home, About, Campaigns, Get Involved and Contact.

Strong calls-to-action

Keep Donate and Volunteer actions visible without overwhelming the visitor.

Impact storytelling

Combine numbers, photographs and short stories to explain outcomes clearly.

Mobile-friendly layout

Cards and forms should remain easy to read and use on phones.

Trust & transparency

Include project updates, contact information, policies and relevant organizational information.

Accessibility

Use readable typography, sufficient contrast, descriptive labels and simple language.

TASK OUTPUT: NGO Website Feature Highlight — ready to use as a visual concept/reference for a Figma design.
